Jonah Largen

Assignment #06

3/1/17
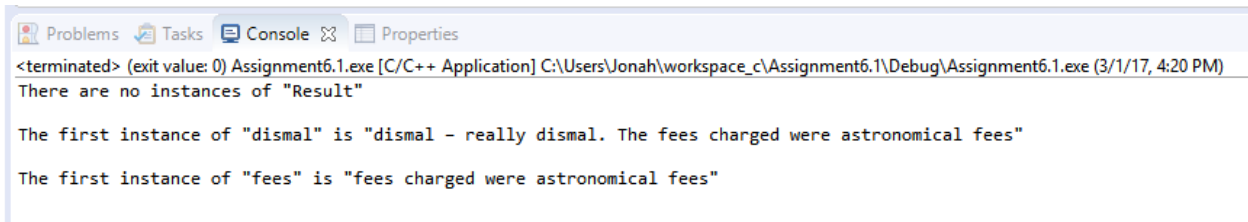

<div align="center">

Input:

</div>

problem_01.c

There was no input for this problem. It correctly displays the first occurrence of the three words in the string.

problem_02.c

There was no input for this problem. It correctly displays the smallest word in the array per the ASCII ruleset, and by the letter placement (due to ambiguity).

<div align="center">

Output:

</div>

problem_01.c
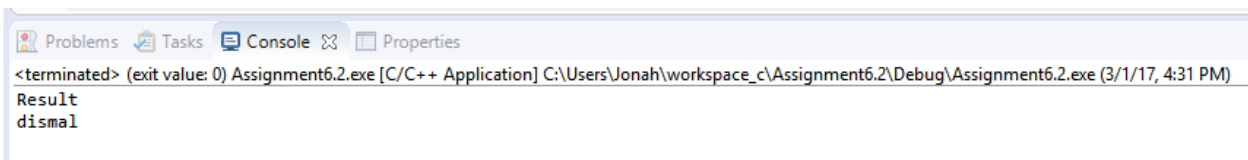

```
Problems   Tasks   Console ⊠   Properties
<terminated> (exit value: 0) Assignment6.1.exe [C/C++ Application] C:\Users\Jonah\workspace_c\Assignment6.1\Debug\Assignment6.1.exe (3/1/17, 4:20 PM)
There are no instances of "Result"

The first instance of "dismal" is "dismal - really dismal. The fees charged were astronomical fees"

The first instance of "fees" is "fees charged were astronomical fees"
```

problem_02.c

```
Problems   Tasks   Console ⊠   Properties
<terminated> (exit value: 0) Assignment6.2.exe [C/C++ Application] C:\Users\Jonah\workspace_c\Assignment6.2\Debug\Assignment6.2.exe (3/1/17, 4:31 PM)
Result
dismal
```
